Dear (Name):

As you work to complete your senior year of high school, I encourage you to continue your education after you graduate.

I want to tell you about an opportunity that can save you money and time. Your performance on the 11th grade South Dakota state assessment or the ACT indicates that your scores in either English or math are such that you will need to complete some level of remedial coursework, should you choose to attend one of South Dakota's public universities. These institutions require students to obtain one of the following scores in order to register for credit-bearing coursework:

- Level 3 or 4 in English and math on the South Dakota state assessment OR
- ACT English sub-score of 18 and math sub-score of 20

High school seniors have the opportunity to complete postsecondary remedial coursework while still in high school. A program through the South Dakota Virtual School provides online coursework called "College Readiness Coursework" that, if successfully completed, will allow you to bypass postsecondary remedial coursework and enroll directly into credit-bearing postsecondary courses.

This online coursework ranges in cost from \$125 to \$175. However, if you successfully complete this coursework, you can be reimbursed for the full cost of up to three courses through the South Dakota Department of Education. Registration for this coursework will remain open throughout the school year. For more information about this program, visit www.sdvs.k12.sd.us.

If you will be taking or retaking the ACT test this school year, I also encourage you to consider a free program called Method Test Prep, which is available through SDMyLife. This program helps students improve test taking skills, and with regular use, has increased students' ACT scores by 1-2 points. For more information about this program, visit www.sdmylife.com.
